## UNION BUDGET 2021: MACROECONOMIC IMPACT AND EMPLOYMENT ISSUE

"Faith is the bird that feels the light and sings  
when the dawn is still dark".

- Rabindranath Tagore

Keeping up with this spirit of faith amidst the disruptions that the COVID-19 Pandemic has caused in the global economy, our Finance Minister presented the first paperless Union Budget for the year 2021-22.

Given severe distortions created in the demand and supply chains and the rise in unemployment, the recent budget is expected to have important implications for the revival of our economy. This year's budget aims at adopting a prudent growth approach to support and facilitate the economy's reset. Efforts and initiatives will be made for doubling farmer's income, developing strong infrastructure, ensuring a healthy population, promoting good governance, creating opportunities for youth, and promising inclusive development.

To take these discussions forward and to gain deeper insights into critical issues related to Budget 2021, the Department of Economics, Shivaji College, is organizing a webinar on the "Union Budget 2021: Macroeconomic Impact and Employment Issue".
