July – October, 2024

Organized by:

Department of Life Sciences

### Who can attend?

This course is open for students of Biological Sciences of Shivaji College. 20% of seats are open for students of other Colleges/Institutes.

## ABOUT COLLEGE

Shivaji College is a premier institution in West Delhi, accredited with grade 'A' by NAAC. It was ranked as one of the top 10 science colleges of the country in a survey conducted by India Today in 2017. It was established in 1961 by Hon'ble. Dr Panjabrao Deshmukh, Union Minister for Agriculture and a renowned social activist and farmer-leader. The college offers twenty undergraduate courses in Science, Commerce and Humanities, a self-financing course in Bachelors in Business Economics, three post-graduate courses. Several senior faculty members supervise Ph.D. scholars registered with University of Delhi, while some engage in UGC-sponsored major and minor research projects. Some students of the college frequently emerge as rank-holders in the University examinations and many are placed for internships in prestigious organizations annually.

## ABOUT DEPARTMENT

The Department of Life Sciences offers students to acquire comprehensive knowledge of disciplinary subjects along with allied subjects of biological sciences, which helps them to understand and appreciate the diversity of life processes existing in the world as well as their evolutionary aspects.

## COURSE OBJECTIVE

Poultry farming is one of the fastest growing and most profitable agri-businesses in current Indian market. Understanding the basic principles of poultry farming is essential for ensuring animal welfare, maximizing production efficiency, and promoting entrepreneurship skills.

## WHY THIS COURSE

Poultry farming is crucial for economic development, nutritional security, social progress, environmental sustainability, and global trade. It plays a multifaceted role in improving livelihoods, ensuring food security, and supporting sustainable agricultural practices.

## COURSE CONTENT

1. Module 1: Introduction to Poultry Farming: An Overview
2. Module 2: Poultry Housing & Essential Equipment required
3. Module 3: Poultry Feed Management
4. Module 4: Nutrition, Health & Disease Management
5. Module 5: Economic aspects of poultry farming & Marketing strategies
6. Module 6: Poultry management practices and guidelines

**Note: The course will also include special lectures by the external subject expert and field visits to various poultry farms for experiential learning.**

## POINTS TO REMEMBER

- ❖ The participants must fill the registration form to enroll in the course.
- ❖ Limited seats are available on first-come first-serve basis.
- ❖ Certificates will be issued to students who complete the course successfully based on their assessment and attendance.
- ❖ Minimum 60% attendance is mandatory to sit for final examination/evaluation.
- ❖ Classes will be held in online/hybrid mode.
