

It gives me great pleasure to say with pride that I have completed my under-graduation from Shivaji College, University of Delhi. It has a wonderful faculty along with cooperative staff and the overall environment of campus is very positive. The relationship between faculty and student is cordial, which gave me an opportunity to excel in my area of interest. The three years spent here were splendid and has helped me to grow better professionally & personally. I got the opportunity to work for an innovation project entitled “Lifestyle Disorders: Etiology, Awareness and Management sanctioned by the University of Delhi from 2015-2016. This has helped me attain admission in Masters of Biotechnology and Bioinformatics at La Trobe University, Melbourne, Australia. I am sure experiences gained during my bachelors at Shivaji College will open new horizon of success. I would like to thank all the faculties and staff for making me a better person.
