

ARC REPORT 2022-2023

Alumni Relations Cell envisions to act as a liaison between the students and alumni community. We aim to establish a common platform where students can seek mentorship from the graduates of their respective departments.

Over the past few months, ARC is constantly working towards fulfilling the full potential of both the communities by taking forward initiatives and engagements that matter. ARC also aims to extend opportunities related to jobs, internships and campus placements.

INITIATIVES :

The first initiative undertaken by the cell was **#The Know Your Alumni initiative** wherein success stories of around 25 alumni members were published on various social media handles including Instagram, Facebook, and LinkedIn. Now, this initiative convert into **“Know Your Alumni Podcast”**, in which we record alumni stories & sharing examples who made benchmarks in many leading industries, we can possibly think.
